Dear Sir,

May 4th, 1994

- I am glad that you are interested in the Ellis' story. You are the first who shows interest. I tried to have the story published, but I got no answer.
- It is indeed Stavis Ellis. He was a sergeant and the lead motorcycle officier in the motorcade.
- I am not sure I should give you his adress or and telephone number. The reason is this: the last time I talked to Ellis, he was quite shaken because so many people called him that it broke his family life. I feel quite a lot of remorses for what I have done to him. He is getting older, so I do not want him to have any other problems.
In any event, if ever you succeed to catch him, I beg you to be careful.

- I have enclosed a cassette but please do not let Ellis that I recorded the conversations. I do not want him to be hurt or betrayed. (The recording is on the "A" Side only.
- I have talked about the story to Detective James R. Leveille but he says that it is a fall story.
- Former policeman and direct superior of Ellis (Lt. Rio S. Pierce) wrote to me: "It was thought among the members of the department that Curry was directed as to the manner the transfert was conducted". (underline added).
It might be interesting to find who are "the members" and

ask them what they mean.

- Ellis said that he told me everything he knows about the transfert. So, I am not sure he can tell you more.

- Last note: I saw on TV that they have just declassified this week photos regarding the JFK assassination and some documents. One of the photos shows the Limousine in a garage (?) after the Killing. If you know someone who has those documents, would you please tell me?

Bye and Good Luck!

I do not recall my source on this. Perhaps Garrison

[redacted] with MAJOR STAVIS ELLIS
[redacted] Texas, Dallas, Texas 75206

This conversation occurred at Ft. Chaffin, Arkansas during the period 22 July - 5 August. I met MAJOR STAVIS ELLIS at the fourth U. S. Army ARRA Intelligence School. MAJOR ELLIS stated he was a Dallas Police Officer assigned to the Traffid Enforcement Division as a motorcycle officer.

The conversation involved the Kennedy assassination, and MAJOR ELLIS stated he was in the motor_cade that day. His duty that day placed him as the left front motorcycle officer to the immediate left front of the President's automobile. This officer went into great detail about the happenings preceding and immediately following Kennedy's assination.

MAJOR ELLIS stated the motorcade had strung out and because the police were trying to close up the President's car was going so slow it caused his motorcycle to wobble. He stated further that it became necessary to hold this motorcycle up by using his legs.

The most important point, I believe he mentioned were the happenings surrounding the first shot.

MAJOR ELLIS stated that to his left front near the curb dust flew or was kicked up about the same time he heard the first shot. He observed people in this immediate falling to the ground apparently to avoid any further shots.

The MAJOR stated he believed this was the first bullet and even now he was more convinced. This is because a portion of the curb where he saw the dust fly has been has been removed. This occurred only a few days after the assassination. The officer went on to state that instead of speeding up as per instructions the cars all slowed down when the shots were fired.

The second part of the conversation was about one of MAJOR ELLIS's fellow motorcycle officers. Thisofficer (as told by ELLIS) stated he was directly under the building when the shots were fired. The Hocked the main entrance and after the supervisor arrived he started up the stairs. The building was the Book Depository. Upon going up the stairs, he and the superivsor encountered someone on either the third or fourth floor. This person was drinking water from the water cooler -- he did not stop because the supervisor advised the officer that the man was an employee. MAJOR ELLIS stated this officer later identified the man by the water cooler as LEE HARVEY OSWALD! This is a summation of the conversation.
